

About Penbode Vets

William Penhale opened his veterinary practice on North Road, Holsworthy in 1840 and vets have been serving the local animal owning communities of Devon and Cornwall since then. When, in 1985, the last remaining Penhale family member left, the practice was renamed Penbode Veterinary Group and to this day, our vets have continued to care for farm, equine and pet owning clients.

In the summer of 2018 Penbode Vets joined the forward thinking VetPartners group which has enabled us to build a new surgery at Stratton and purchase remarkable veterinary equipment.

With dedicated pet vets based in Bude/Stratton, Bradworthy, Camelford and Holsworthy, you are never far away from the dedicated and compassionate Penbode small animal veterinary team.

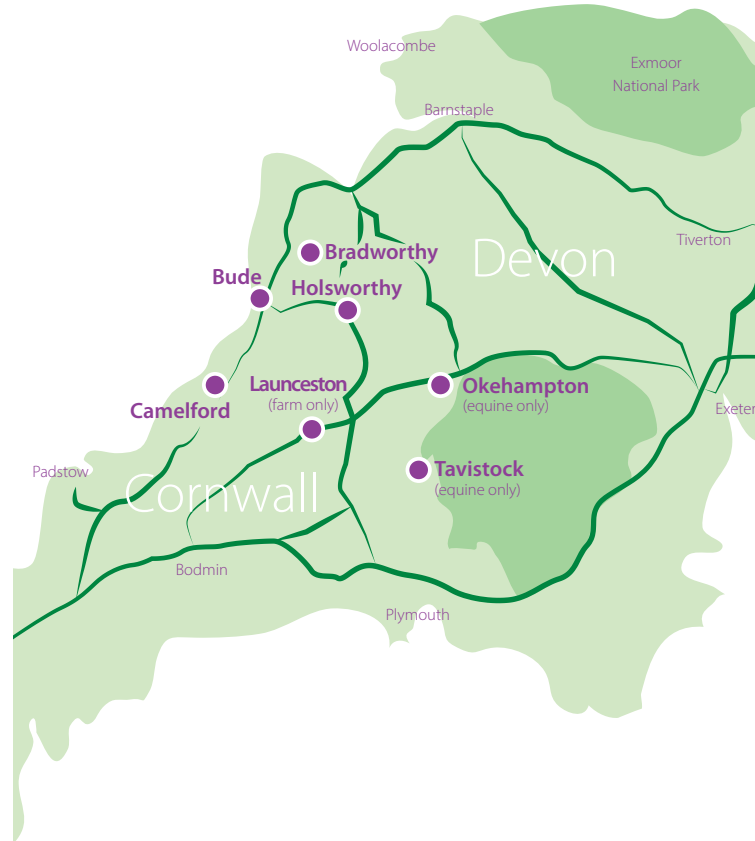

Over the generations, Penbode has continued to adjust to evolving client needs and advancing veterinary knowledge. We have state of the art veterinary technology and equipment in brand new purpose built surgeries and wards where you can be sure your animals receive treatment and care at the highest possible standard from our own 24 hour round the clock teams.

All of our vets work within their own areas of expertise and undertake extensive continuous professional development, ensuring that you get the best possible care for your animals. This means you have vets dedicated to small or companion animals (eg dogs and cats), farm animals and horses respectively.

Our Penbode staff operate a 24 hour, 365 days-a-year service, ensuring a vet with the relevant expertise is always available and only a 'phone call away.

Keeping your animals
healthy and happy

Prevention is better than cure!

- At Penbode Pet Vets we believe in ensuring your animals get the best quality of life possible.
- For pet owners, maintaining protection against some of the most common, potentially life threatening diseases is essential. Therefore we recommend vaccinations and routine treatments based on your pet's lifestyle, to ensure your pet gets the ongoing protection he or she deserves. But we understand that owning a pet costs money, so, to enable pet owners to spread the cost of routine treatment, we have designed our own practice membership scheme – **Protect4Life**.
- There are four different levels of **Protect4Life** membership. Three offer additional benefits such as worm and flea treatments mailed to your home, additional vaccinations and discounts on consultations and treatments your pet might need. Read on for more information, or speak to one of our team today to find out how you can save money and reduce stress, while providing for your pet's ongoing health.
- Protect4Life** membership provides pet owners with the support they need to help their pets stay fit and healthy. When you bring your pet for its vaccination, an overall clinical examination provides you with peace of mind as we carefully monitor the general health of your pet and offer advice, support and treatment planning. This can reduce or prevent problems arising in the future. Remember, our friendly and caring staff are here for you.
- Plus, the cost of maintaining the general health of your pet is distributed throughout the year by making monthly Direct Debit payments#. It couldn't be simpler.

#New clients may be asked to pay for the initial treatment until the first Direct Debit payment clears. After such time the initial payment will be refunded.

Save up to £361 on your annual vaccinations

Joining Age	Cat (Life Expectancy 16)	Dog (Life Expectancy 13)
1	£300.00	£361.00
2	£275.00	£326.00
